PROFESSIONAL SUMMARY

I am Vanchhit, a passionate AI safety advocate. I am a data-driven product manager with experience in working with AI with strategy experience from my entrepreneurial ventures and work experiences. I started focusing on AI safety work with BlueDot and ML4Good and am looking for fellowships and roles in Technical Governance of AI Safety to help mitigate the threat that unchecked AI development poses to humanity.

EXPERIENCE

Safe AI Germany Incubator <i>Mentee: Risk-Weighted Compute Permits Under Imperfect Monitoring: Enforcement Design</i>	Berlin, Germany <i>April 2026 - present</i>
